- Please inform me about anything that could impact your health and/or my health or the tattoo realization.

Important points!

A tattoo is permanent and is a skin penetration by an foreign body (the needles). Your skin will be in contact with stuff and materials that she doesn't know. This will lead to a superficial wound that you will have to take care of. Tattoos can cause allergies and/or infections, if they are poorly treated. Your tattoo artist has the right to refuse to tattoo you and/or a tattoo project. With every tattoo you will receive an aftercare process document and/or an oral explanation. In case of issues, doubt or if you have any question, the first person you have to speak to is your tattoo artist. Hereby I declare :

- That I'm over 18 at the date of my tattoo appointment
- That I'm not under the influence of alcohol or drugs or other toxic substances.
- That I'm not aware of any medical issues impacting the tattoo session and/or my health and/or my tattoo artist's health.
- That I'm aware of the graphic/color variations between the sketch and the results on the skin.
- That a tattoo is a wound that can lead to an infection.
- I'm aware that it is impossible for my tattoo artist to be sure that I'm not allergic to any product, material or pigment that are used during the session and I accept that an allergic reaction is possible.
- That I'll follow the given aftercare recommendations from my tattoo artist, in order to complete at the best the healing process.
- Transferring my image rights and authorizing my tattoo artist to use pictures of my tattoo for online publications.
